ASPIRE

**new multi-arts project, which
will run until April 2007**

Professional artists will lead and encourage 16-19 year olds to express themselves in workshops using dance, music, theatre and film. The young people will explore talents and develop artistic skills. Sessions are designed to build self-esteem, increase motivation to learn and above all - INSPIRE.

Meet people who work in the arts industry; have fun and gain new skills and confidence.

This dynamic arts project is funded by the Learning Skills Council and is primarily aimed at non-participating or at risk of exclusion young people.
