Akademi's community programmes continues to reach hundreds of older adults and disadvantaged young people per year to support and increase their confidence, creativity, community ties and their awareness of South Asian culture. We create workshops and projects to enhance the specific needs of each group we work with, to capture their imaginations and aid their wellbeing. Our projects take place in a range of settings from; schools, colleges, youth clubs, day centres, to residential homes, hospitals and prisons.

Through participatory workshops using global performing art traditions, Akademi helps older adults to deal with stress and loneliness; maximise cognitive functions and re-energise their memory. These workshops bring relief from isolation and help them to express and communicate.

Without the kind generosity of our patrons, Akademi would not be able to create such a positive impact on so many lives. We would like to thank everybody for playing an important role in helping us to bring about this change.

Given that we are able to underwrite the costs of this production, we would welcome your charitable donations to aid us in continuing to enhance the lives of many people through our work.
